MEANING OF SYMBOLS

Separate collection of WEEE

Do not dispose of used equipment with household waste.

CE marking

Manufacturer's declaration of conformity with EU requirements.

Read the manual

Safety and operating rules before starting work.

Wipcool PT-25V user manual

The Wipcool PT-25V vertical condensate trap is used to drain condensate from air conditioning systems. It limits the passage of unpleasant odours and insects through the drain pipe.

The user manual is an integral part of the product. Please read this manual carefully and follow all instructions strictly.

General information

Wipcool products are designed for professional use by qualified air conditioning and refrigeration engineers. As the manufacturer, Wipcool specifies that our products should only be operated by suitably qualified and trained personnel.

- Comply with all local safety regulations and general safety standards when using the Wipcool PT-25V condensate trap.
- The user manual should be kept near the product so that personnel can access it easily at all times.
- Before use, qualified personnel should read the user manual carefully and understand all the instructions it contains.
- The manufacturer accepts no liability for any damage resulting from improper use, failure to follow the user manual, lack of personnel qualifications or any unauthorised modifications to the product.
- The general terms of sale set out in the sales documents apply.

Symbols and conventions

Symbols used in the manual:

01

Notice - risk of product damage or incorrect results.

02

Hot surface - wait until it has cooled before touching.

Safety information

CAUTION

The condensate trap limits the backflow of air, but does not stop it completely.

WARNING

If hot water flows into the condensate trap, do not touch the water or the heated parts of the trap - risk of burns.

- The condensate trap is made of plastic. Do not store or use it at high temperatures, for example near sources of flame.

Technical specifications

Parameter	Value
Model	PT-25V
Connection internal diameter	Ø25 mm
Connection external diameter	Ø32 mm
Negative pressure	1200 Pa (0.012 bar)
Condensate trap length	100 mm
Body diameter	Ø45 mm

Construction

Dimensions

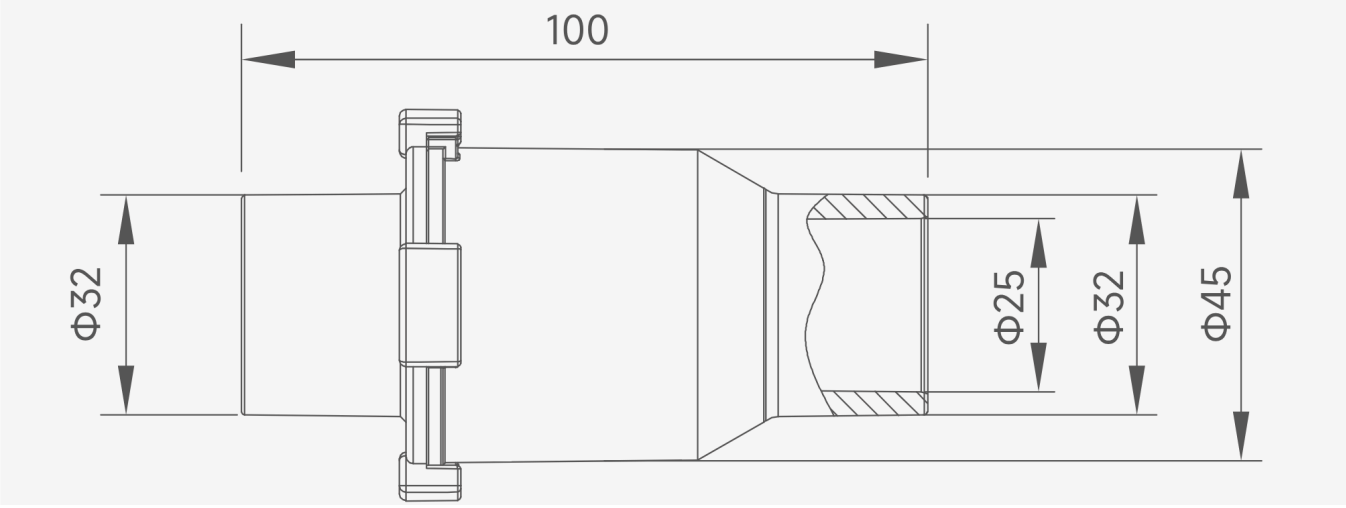

Figure 2. Condensate trap dimensions in mm.

Contents

- Wipcool PT-25V Condensate Trap.
- User manual.

After unpacking, check that the contents are complete and in good condition. Report any missing or damaged items to the seller.

Transport and storage

- Transport the condensate trap in its original packaging.
- Store it in a dry place, away from direct sunlight and heat sources.
- Storage temperature: -20 to +60 °C.

Installation

Figure 3. PT-25V condensate trap in the condensate drain.

The condensate trap must be installed vertically.

01 Provide an access opening to the condensate trap for cleaning.

02 Check that the upper housing is fully tightened.

Maintenance

> **CAUTION**
> Do not use organic solvents, such as acetone thinner, for cleaning.

To clean the condensate trap, unscrew the upper housing anticlockwise. Clean the inside of the condensate trap and reassemble it. Fully tighten the upper housing and check for water leaks.

Service and documents

Before submitting a service request, have the following ready:

- Model - found on the product nameplate and on the invoice.
- Serial number - if there is none, provide the production number (e.g. 11/2025), usually found on the underside of the product.
- Proof of purchase - an invoice or receipt from an authorised distributor.
- Description of the fault - what is happening, when it started and under what conditions.

You can submit a service request at wipcool.pl/serwis. You will also find the warranty terms there.
